

J. ADAMS & CO

MATERIAL CARE GUIDE

At J. Adams & Co, we believe in designing and manufacturing lighting that truly stands the test of time. Here are some care instructions to help maintain the beauty and longevity of our different materials.

Antique Brass / Bronze / Satin Brass:

- These three finishes are lacquered – a coating is applied to the surface to preserve the appearance and protect from tarnishing / oxidation.
 - Clean using a soft, lint-free cloth to gently wipe away dust and smudges.
 - Avoid abrasive cleaners or rough sponges that can damage the lacquer/finish.
 - Avoid direct exposure to harsh chemicals to prevent discoloration or tarnish.
-

Bronze Antique Brass / Bronze:

- A clear wax is applied to both finishes to enhance the appearance of the metal and protect the bronze from oxidation and wear.
 - Please note that all our outdoor fixtures are waxed (unlacquered) and will naturally mature and patinate over time.
 - Clean regularly with a soft cloth to remove dust and fingerprints.
 - Do not jet wash, as the high pressure can damage the wax and accelerate unwanted wear.
 - Use a mild soap solution and a soft brush to remove stubborn dirt or grime.
 - Apply a thin layer of high-quality wax periodically to maintain the lustre of the metal.
 - Avoid using abrasive cleaners or rough materials that can scratch the surface and damage the finish.
-

Satin Nickel:

- Clean using a soft, lint-free cloth to gently wipe away dust and smudges.
 - Avoid abrasive cleaners, harsh chemicals or rough sponges that can damage the finish.
-

Glass:

- For regular cleaning, use a soft cloth or a feather duster to remove dust.
 - For smudges or fingerprints, use a gentle glass cleaner sprayed onto a soft cloth.
 - Avoid using rough sponges or abrasive materials that can scratch the glass.
-

Natural Stone:

- Wipe gently with a soft, dry cloth to remove dust and dirt.
 - For deeper cleaning, use a mild soap solution and a soft brush, then wipe dry.
 - Avoid using acidic or abrasive cleaners that can damage the natural stone surface.
-
